State of emergency declared throughout Serbia

Belgrade, 15 March 2020

President of the Republic of Serbia Aleksandar Vucic announced tonight that due to the coronavirus situation, a decision was made to declare a state of emergency throughout the Republic of Serbia.

Vucic said at a press conference that the decision was made after tonight's meeting of the Covid-19 crisis response team and the crisis team for eliminating the possible and harmful effects of the coronavirus on the economy at the Palace of Serbia, which he chaired.

According to him, the state of emergency will come into force immediately after the decision is published in the Official Gazette, after which a government session will be held to adopt a decree on emergency measures.

The school year ended well

According to the Ministry...

How the teachers remember it..

Happy end? The end, at lest? NO!

- The Ministry asked school leaders to invite volunteers to record TV lessons for the new school year, for all the subjects of the curriculum, both Primary and Secondary
- In September hundreds of teachers joined in, 11 from my school including me
- In November our school team got its assignments
- In December it was all done

What were the challenges?

Making a lesson plan for an imaginary audience

Choosing age appropriate (and legal) contents

Achievenig the outcomes expected by curriculum

How do we know that the learning process happend at all?

What does this button do?

Reflections

How we all benefited from TV lessons:

- All students, regardless of the conditions they live in, were able to carry on with their learning
- Additional materials were available online

- New knowledge and experiences

Has our teaching changed?

- New resources
- New skills
- More comfortable about using technology
- Blended learning
- Communication improved (teachers, parents, students)
